

# Voices on Orientalism

— an evening of reflection and discussion —  
organised by: seminar “Religion - Knowledge - Discourse”

The exhibition “Das Heilige Land”, which had been displayed in the foyer of the Faculty of Theology, has led to intense critical discussions inside and outside of the faculty.

We would like to invite you for an evening of reflection and discussion about the contemporary relevance of questions on Orientalism and the role visuality plays in this context. Students and PhDs have prepared some small inputs in order to start the discussion, further contributions are very welcome.
